## **DETAILED ACTION**

Page 2

1. Applicants' Response to Office Action, received 22September2003, paper#33, is acknowledged.

2. Claims 56-70 are pending and under consideration.

## **Rejections Maintained**

3. The rejection of claims 56-67 under 35 U.S.C. 102(b) as being anticipated by Menozzi et al (*Abstracts of the General Meeting of the ASM*, 95(0):193, abstract B-159) is maintained for the reasons put forth in the original rejection (Office Action, paper#20, mailed 9January2002) and upheld in examiner's responses to applicants' arguments (Office Action, paper#24, mailed 10October2002; Advisory, paper#27, mailed 13February2003; Advisory, paper#30, mailed 26March2003).

Applicants argue that even if a claimed invention is disclosed in a printed publication, that disclosure will not suffice as prior art if it was not enabling. The cited reference is not enabling because it does not contain information: 1) to permit molecular characterization of the functional activity; 2) concerning amino acid sequence; and 3) concerning antibodies.

The examiner has considered applicants' argument, but does not find it persuasive. The instant claims are drawn to an isolated proteinic mycobacterial antigen comprising specific amino acid sequence and is recognizable by specific monoclonal antibodies. Support for the claims is provided by the teaching and more specifically by the examples in the specification. As stated in the Advisory Action, mailed 13February2003, in the absence of evidence to the contrary, Menozzi et al do teach the claimed proteinic mycobacterial antigen based upon the data that: 1) the instant inventors and their laboratories are also authors on the cited reference, 2) both proteins have the same name, 3) both proteins are from identical mycobacterial

sources, and 4) both proteins have identical characteristics. The amino sequence of the cited reference HBHA and its binding to specific monoclonal antibodies would be identical to the HBHA of the instant claims. Applicants' argument has not put forth data indicating the contrary, i.e., the HBHA of the cited reference **is not** the claimed HBHA. Therefore, the rejection is maintained for reasons of record.

4. Claims 68-70 remain objected to as being dependent from rejected claims.

## **Conclusion**

- 5. No claims are allowed.
- 6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
